# IMPORTANT INFORMATION

## Things to Consider Before You Buy

There are protections under the Motor Vehicle Sales Act 2003 when you buy a motor vehicle from a motor vehicle trader.

Motor vehicle traders include car dealers, car auctioneers, car importers, and car wholesalers.

## Motor Vehicle Trader Registration

Under the Motor Vehicle Sales Act 2003, a motor vehicle trader must:

- be registered
- attach this notice to a used motor vehicle displayed for sale
- provide you with a signed copy or electronic version of this notice when you buy a used motor vehicle.

You can search the Motor Vehicle Traders Register to find out who is a motor vehicle trader or who is responsible for operating a particular motor vehicle trading business. You can also search for traders who have been banned.

To find out more, visit [www.motortraders.med.govt.nz](http://www.motortraders.med.govt.nz) or free phone 0508 668 678.

## Security Interest

If a finance company or a person lends money to someone to buy a motor vehicle, the lender can register a security interest over the vehicle on the Personal Property Securities Register (PPSR). This means that the lender has rights over the vehicle. You should check the PPSR to ensure that the motor vehicle you intend to buy is free of a registered security interest. Visit [www.ppsr.govt.nz](http://www.ppsr.govt.nz).

If you buy a used motor vehicle from a motor vehicle trader and the trader does not disclose that a security interest is registered over it (see the front of this notice), then you receive the vehicle free of the security interest. Note that this protection does not apply to private sales.

**WARNING :** If you buy a used motor vehicle that has a security interest registered on the PPSR and the motor vehicle trader discloses the security interest (see the front of this notice), the vehicle could be repossessed.

## Vehicle Year

For motor vehicles registered before 1 January 2007, “vehicle year” means the year of manufacture or the model year or the year of first registration. For motor vehicles registered after 1 January 2007, “vehicle year” means the year of first registration anywhere in the world.

## Actual Distance Vehicle has Travelled

You should not place too much importance on the odometer reading when buying a used motor vehicle. There is a risk with any used motor vehicle that the odometer has been wound back. A vehicle’s mechanical condition is a better indicator of its quality. You may wish to have a vehicle checked by a person with mechanical knowledge before you buy.

On the front of this notice, the supplier must state one of the following:

- the odometer reading or
- “I [name of supplier] cannot accurately determine the actual distance this motor vehicle has travelled because the odometer reading may be inaccurate” or
- “This motor vehicle’s odometer reading is inaccurate”.

Stating an incorrect odometer reading is a breach of the Fair Trading Act 1986.
